REAL LEMON

Shouldn't a lemon soda be just carbonated water, high quality sugar and the world's best lemons? We think so at least!

The tradition and heritage of citrus cultivation in Sicily goes back over a thousand years and the fruit, famous for its aromatic oils and tangy acidity, is considered to be amongst the very best in the world. The lemons are processed to preserve their freshness, just mixed with cold spring water and balanced with cane sugar.

REAL RASPBERRY

Believe it or not, but we actually think that a raspberry soda should contain real raspberries!

Few flavours bear stronger reminiscence of childhood summers than ripe raspberries straight off the bush. To retain the natural flavour we simply use organic raspberries, gently extract their juice, balance with cane sugar and the juice of Sicilian lemons. Neither aromas nor colourants are added - 100% natural.

REAL KOLA

Kola with a K? Well of course – that's how kola nut is spelled!

We use a careful selection of twelve different fruits and spices to create a complex yet balanced kola. Round caramel notes from unrefined cane sugar creates a foundation for flavours, further complemented by sweet spices such as cinnamon, vanilla and liquorice. Fresh citrus fruits lend a bright freshness which all together balances the aromatic and spicy notes from kola nut, nutmeg and fresh ginger.
